PROJECT EXPERIENCE

Ecommerce | Live Demo
- Collaborated and developed a full-stack eCommerce application using React, Node.js, Express.js, and MongoDB, deployed on AWS.

WriteScape | Live Demo
- Created an interactive blogging platform using React, MongoDB, Express.js, and Node.js, deployed on Vercel.
- Enabled users to write, share, and explore content on various topics.

FitMeter | Watch Demo
- Developed a fitness tracker mobile app using Flutter/Dart, MongoDB, Express.js, and Node.js
- Enabled users to create a workout session that they can track.

WORK EXPERIENCE

Archangel Technologies, Inc. (Mandaluyong City, Philippines)   **May 2025 - Present**
Junior Software Developer (Full-Time)
- Collaborated with cross-functional teams to test and resolve user-reported issues in a Flutter-based employee time and attendance application.
- Optimized the process and reduced the error or delay of capturing the date and time by 80%. Improved the accuracy by 16-20%.
- Ensured that the issues were fixed across all platforms and delivered on time.
- Implemented a new feature—a version checker with automated updates for the application.

U&I Global (Brisbane, Australia)   **February 2025 - March 2025**
Freelance Web Developer (Project-Based)
- Re-engineered the U & I Global Expo website, enhancing user experience and streamlining the consultation booking process.
- Improved UI/UX by implementing a modern, readable, responsive design using React and Tailwind CSS.
- Optimized website performance by implementing (SPA) Single Page Application making the website load faster when navigating to other pages.
